PROUDLY MADE IN AMERICA FOR 121 YEARS.

A RICH HISTORY OF AMERICAN MADE QUALITY

1903 WORKFORCE

1921 CONSTRUCTION IN GRANVILLE

In New York City, 1903, the Telescope Cot Bed & Novelty Company started manufacturing wood cots and campstools with "telescoping" legs that gave the fledging company its unique name. In 1921, the Telescope saw mill and assembly operations were relocated to the quaint countryside of Granville, NY. This area encompassed acres of woodland, hard-working laborers, as well as rail road that greatly supported the new facility. Later in 1932, sales and administration moved from New York City to the charming town of Granville.

1975 COMPANY PICNIC

1993 WORKFORCE

2003 WORKFORCE

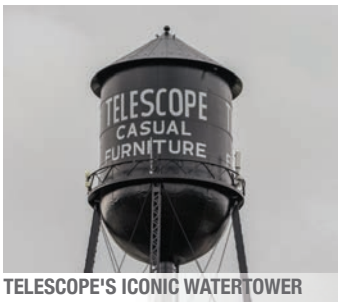

Now, after 121 years, Telescope has continued to evolve and is featuring high quality materials made into our wonderful outdoor furniture collections. Telescope Casual Furniture is diligent in making a positive economic and philanthropic impact, not only in Granville, but also in Upstate New York, Vermont, and beyond. Over the years we have provided stable employment for more than 275 employees, while also supporting several local youth programs such as Granville's Little League and nonprofit associations like the Lions Club.

PRESENT DAY SEWING OPERATOR

To evolve with an expanding product line and company growth, Telescope has continually made renovations to the nearly one-million square foot factory along with concentrated efforts in research and development, engineering, and unique manufacturing processes. As a result of being self-sufficient, Telescope has been able to maintain that competitive edge in today's market by responding quickly and finding innovative methods for manufacturing. Currently, the operation has transformed into a lean manufacturing model, which is constantly evolving to help us remain environmentally responsible, efficient, and viable.

For 121 years, Telescope has been able to pride itself by remaining a remarkably successful family owned business that is currently managed by fourth and fifth generations, now led by Kathy Juckett. Our vast number of employees maintain a close working relationship with the Vanderminden family and management team. Much of Telescope's success is owed to the longevity and loyalty of its talented and skilled workforce. Telescope has always kept its focus on providing the greatest levels of Quality, Design, Comfort, and Selection combined with a Fast and Reliable delivery. None of these attributes are easy to deliver, but we know that they are imperative. Telescope is proud to have earned the reputation as having the best customer service, fastest delivery, and the best quality products in the industry. Our entire team is working each day to prove that our reputation is well deserved, and our brand is worth it.

PROPER CARE, CLEANING & MAINTENANCE

In order to keep your Telescope Casual products looking great for many years to come, we recommend the below instructions for proper care, cleaning and maintenance.

SOLUTION DYED ACRYLICS (CUSHION & UMBRELLA) & MESH FABRICS (SLING)

Spot wash dirt with lukewarm water and a mild soap. Rinse thoroughly with clean water, then air-dry. To clean stubborn stains, in a ventilated area, prepare a mild solution of one cup bleach plus two caps full of a natural soap per gallon of water. Spray the entire area, and scrub vigorously if necessary. For stubborn stains use a soft bristle brush. Rinse and allow to dry. Do not use pine oil cleaners on cushion or sling fabrics. For Sunbrella fabrics, blot (don't rub) liquid spills with a clean, dry cloth. For oil-based spills, apply an absorbent such as corn starch, then remove with a straight edge. Spray on a mild cleaning solution of soap (such as Dawn or Woolite) and water. Rinse the fabric thoroughly to remove all soap residue. Air dry.

POWDERCOAT FINISH ON ALUMINUM

To keep furniture looking new, use Soft Scrub or similar non-abrasive products to remove scuff marks and scratches. Use lemon oil for protection and natural soap and water for cleaning. Powder coating is one of the most durable protective coatings available for metal surfaces, but proper care will help prolong the finish. Over time, powder coated finishes exposed to the elements may show signs of weathering such as reduced gloss and slight color loss. A consistent schedule of cleaning the surface will help remove dirt, grime and other surface buildup that may be harmful to the powder coating finish. We do not recommend using chemical cleaners such as Acetone, Mineral Spirits or Lacquer thinners. Any type of chemical that is harmful to the powder coat surface should be removed or cleaned immediately.

MARINE GRADE POLYMER (MGP) & RUSTIC POLYMER

Avoid teak oil and other products that can stain the finish. Avoid heat sources that exceed 180 degrees F. Only routine cleaning with common detergents is required. Nylon scrub pads and brushes should be used with care because excessive force can mar the finish. For resistant stains, apply bleach and allow to soak in. Use citrus cleaner, alcohol or mineral spirits to remove grease or oil stains. Automotive silicone spray products or household furniture polish can help to hide scratches in the surface.

VINYL STRAP FURNITURE

Telescope Straps can be cleaned using a soapy solution of warm water and Ivory Liquid. Hose down to rinse. DO NOT USE PINE OIL CLEANSERS OR HARSH ABRASIVES. Straps can be easily replaced by the consumer by heating the strap in hot water and attaching it to the frame while hot. As the straps cool down, they will shrink for a snug fit.

TABLE TOPS

For tables with a powder coat finish or a polymer surface, follow directions above. For Origins Top tables, use dish soap and water. For other tables, use standard counter top cleaners and protectors.

WINTER MAINTENANCE

Furniture that will be stored outside or in other cold areas must be drained of any water to avoid freeze/ice damage in the tubing. Freeze/ice damage is not covered under warranty.

WARRANTY & SERVICE

Limited Warranty

Frames and Powder Coat: If your Telescope powder coat aluminum frame, marine grade polymer frame, or rustic polymer frame fails structurally during normal usage within the applicable warranty period (as defined below), we will repair or replace the frame without charge, parts and labor included. (In the case of discontinued models or finishes, we will replace the item with the closest comparable current model.) If Telescope agrees to have an authorized dealer make the repairs, a maximum labor charge must be agreed upon by both Telescope and the dealer before work can commence. Products covered by our frame warranty are identified in our catalog as either **15/5, 15/3, 15/1** or no identification at all. **15/5** indicates a frame warranty period of 15 years in residential use/5 years in contract use. **15/3** indicates a frame warranty period of 15 years in residential use/3 years in contract use. **15/1** indicates a frame warranty period of 15 years in residential use/1 year in contract use. No indication indicates a frame warranty period of 1 year in residential use and that there is no frame warranty in contract use. All warranty periods commence on the date of purchase by the consumer or contract customer. Contract use includes any rental, business, commercial, institutional, or other non-residential use.

Marine Grade Polymer and Rustic Polymer materials used in our products are warranted against rot, cracking, splintering and decay for the length of the applicable warranty period defined above.

The powder coat finish on our powder coat aluminum frame furniture is warranted against peeling, cracking or blistering for a period of 3 years from the date of purchase. Failure of the powder coat finish due to abrasion, including abrasion caused by stacking the furniture against other furniture or scraping against other surfaces, is not covered by this warranty. Exposure to salt water or salt air may cause powder coat finishes to blister due to oxidization of the metal; such blistering and oxidization are not covered by this warranty. Fading, staining and scratching of marine grade polymer or rustic polymer surfaces is not covered by this warranty. Rusting of any steel or stainless steel components is not covered by this warranty.

The following products are not covered by our frame and powder coat warranties: table tops, umbrellas, umbrella bases, wood furniture, cushions, slings, straps, and folding aluminum furniture.

Steel bases, if not properly maintained, will rust if the finish is scratched through to the metal. Rust is not covered under warranty. Umbrella covers/fabric are warranted to be free from manufacturing defects for 1 year from the date of purchase.

Other Warranty Limitations and Exclusions: The natural weathering of wood finishes, breakage of glass, fading, staining and mildewing of fabrics, slings and strapping, the compression of cushion fillings, the stretching of slings, and the rusting of umbrella bases or pedestal bases are not covered under our warranties. Warranty is void unless routine maintenance of product is performed, such as tightening of screws and bolts, regular care and cleaning.

Furniture Covers: Telescope Furniture covers are warranted to be free of manufacturing defects for one year from date of purchase. Furniture covers not made by Telescope Casual Furniture, Inc. could cause damage to the surface finish of our furniture. Such damage is not covered by this warranty.

Freeze or ice damage is not covered by our warranties. Furniture stored outside or in other cold storage should be drained of any water. If allowed to freeze inside the furniture, water can damage the tubing.

These warranties do not cover the failure of furniture caused by acts of God, accident, neglect, improper shipping or handling, or by unreasonable or abusive use, and these warranties are void if our care and maintenance instructions were not properly followed. Furniture used in a contract (commercial) setting is not warranted unless it is specifically designated for contract or commercial use in our catalog.
